The Governing Documents of the Association require that you submit to the Architectural Review Committee for approval all proposed exterior additions, changes or alterations to your house and lot.

Please refer to your Brownstones at Park Potomac Residential Design Guidelines for Homeowner Modifications for instructions on General Considerations, Specific Guidelines and Submission Requirements.

Pursuant to Article III, Section 4(c) of the Declaration, the Architectural Review Committee has 60 days within which to approve, modify or disapprove a correctly filed application. The Architectural Review Committee will use its best efforts to respond to complete applications within 14 to 30 days, but how quickly it responds to an application is dependent upon a number of factors, including the complexity of the proposed modification and the availability of committee members. An application submitted without all required submissions will be considered incomplete. In such a case, the Architectural Review Committee's review period will not commence until all required submissions have been provided. Other exhibits may be requested to permit adequate evaluation of the proposed change. If you have any questions regarding the required submissions

or the application process, you are advised to seek guidance prior to submission of an application.
